

Product Discontinuation

Effective 31 March 2026, we will be phasing out the following products from our FirePro range, and discontinuing them by 1 June 2026. Routine production and sourcing of these products will cease and only the alternative products will be available after this date. To ensure a smooth transition, both 50mm Ablative Coated Batt and its accessory products will continue to be available during the changeover. We'll be fulfilling existing orders and supporting ongoing projects until stock is depleted.

Products affected:

Product number	Product description

Key dates:

- This notification is effective from 2 March 2026
- All orders for existing requirements must be placed by 31 March 2026.
- Please note that no orders for these products will be accepted after 31 March 2026 without prior agreement.

Please note that ROCKWOOL Limited reserves the right to limit last time buy quantities – for each product based on its stock availability

ROCKWOOL Limited cannot guarantee that stock will be available until the 1 June 2026. Should stock run out on any of the affected products listed before the 1 June 2026, the alternative products will need to be ordered

If you have any questions about the discontinuation of the above products, please do not hesitate to contact ROCKWOOL Customer Services customersupportcentre@rockwool.com

Yours faithfully

James Francis,

Product Manager – Fire-stopping

ROCKWOOL UK and Ireland
